Tools & Platforms: Git, GitHub, VS Code, Vercel, Netlify, Figma, Jira, Zoho Cliq

Work Experience

Associate Software Engineer

Integriti, Lahore, Pakistan

Apr 2026 – Present

- Build and maintain full-stack web applications using modern frameworks such as Next.js, React, and Node.js, implementing frontend UI, backend logic, and third-party integrations.
- Develop e-commerce and business websites using Shopify, WordPress, and Webflow, focusing on responsive design, performance optimization, and deployment.
- Developing custom Shopify apps and integrations to extend Shopify store functionality and automate e-commerce workflows.

Software Engineer — Trainee

Integriti, Lahore, Pakistan

Jan 2026 – Mar 2026

- Contributed to full-stack web development projects, gaining hands-on experience with Next.js, React, Node.js, and CMS platforms including Shopify, WordPress, and Webflow.

Frontend Developer — Internship

Elevo Pathways, Cairo, Egypt

June 2025 – Aug 2025

- Strengthened technical expertise in HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind, and Bootstrap while developing responsive, scalable, and user-friendly interfaces with a focus on user experience.
- Gained practical experience in front-end development, API integration, and modern UI/UX design, using Figma for wireframing and prototyping.

WordPress Developer — Internship

Bizassist Global SL x Thokmandee, Lahore, Pakistan

Sep 2025 – Dec 2025

- Built custom WordPress websites and plugins from scratch without templates, delivering functional solutions for real-world needs, while enhancing skills in PHP and WordPress development.
- Designed responsive, user-friendly websites and blogs using Figma with efficient layer management, improving overall user experience.

Projects

- **Green Minds**, A CRM platform built with NestJS and TypeScript, designed to streamline client management, enhance workflow efficiency, and deliver a clean, professional user experience. [Link](#)
- **Protek**, A modern, responsive corporate website built with Next.js and Bootstrap, featuring a clean design, interactive UI elements, and a professional layout to showcase eco-friendly solutions. [Link](#)
- **Fitness Lab**, A sleek, responsive fitness app layout built with React, Tailwind CSS, and Framer Motion, a static front-end prototype showcasing a clean user interface. [Link](#)
- **Callavan**, A real-time driver tracking platform built with Web Flow, enabling users to see and connect with nearby drivers, featuring live location updates, status indicators, and seamless user interactions. [Link](#)
- **Kopilot.ID**, Developed a custom Shopify storefront and coded a fully customized product detail page (PDP) with dynamic variant-based upsell logic to deliver personalized cross-sell experiences. [Link](#)
- **Etchfy**, A custom-engraving Shopify storefront for personalized gifts and corporate branding, featuring material-focused collections and a streamlined UI. [Link](#)
- **Thokmandee**, A wholesale B2B marketplace connecting small businesses with diverse products, best prices, built on WordPress, Elementor Pro & Dokan Pro. [Link](#)

Custom Apps

- **SlideEase:** Built a customizable Shopify slider app supporting product, image, banner, and promotional sliders with responsive layouts, theme app blocks, branding controls, and lightweight performance-focused rendering. [Link](#)
- **Balloon Bouquet:** Developed a Shopify product customization app with an interactive live-preview bouquet builder, dynamic pricing, unique checkout variants, theme app blocks, and order management with configuration and PDF summaries. [Link](#)
- **FormEase:** Built a no-code Shopify form builder with drag-and-drop editing, live previews, multi-step forms, file uploads, custom CSS, theme app blocks, email notifications, and a submissions dashboard. [Link](#)
- **BookFlow:** Developed a Shopify appointment booking app enabling merchants to create services and availability, while customers select real-time time slots and complete bookings through Shopify checkout. [Link](#)
